

BATTERY CAPACITY & HOUR METERS

12-80V WITH OR WITHOUT LOCK-OUT

◀ **BAT/32561**

Multi-voltage battery discharge indicator with hour meter 24V - 80V

Programmable multi-voltage battery discharge indicator with hour meter.

This battery indicator with hour meter & SMD-technology is based on a powerful microprocessor.

One of the most important characteristics are the two touch buttons and a potentiometer on the back which make it possible to program according to the battery!

With lock-out - Ø 52 mm.

◀ **BAT/38510**

Multi-voltage battery discharge indicator 24V - 80V

With lock-out - Ø 52 mm

◀ **BAT/32146**

Battery discharge indicator

12V- 48V - 52 x 30 mm

◀ **BAT/32562**

Hour meter

12V- 48V - 52 x 30 mm

Albright contactors are designed to be used on a wide variety of applications within the marine industry, including bow thrusters, windlasses, anchor winches, dual battery & battery isolation systems. In addition, they can be used for hydraulic power packs, engine starting and standby power and lighting applications. We can supply our contactors to customer's own specifications.
